

## Placebo Solitude

Placebo Solitude is the soundtrack for the misinformation age. Isolated by our fears and yet monitored by our protectors, Placebo Solitude is a portrait of a man lost in his own paranoia and disbelief. Aeon Grey's long awaited instrumental project is finally realized. Placebo Solitude finds Aeon Grey painting a very moody and melodic dialogue about the current state of the world. This is not simply "instrumental hip-hop". It is a wordless diary of an artist expressing himself at his personal ground zero.
